

"We will encourage people to take responsibility for their own health and well-being whilst treating those who become ill with care, compassion and skill."

WE ARE LOOKING FOR PATIENTS TO JOIN OUR PATIENT PARTICIPATION GROUP.

The aim of the group is to help the surgery understand patient's views regarding the development of practice services and to help the surgery communicate about the challenges and opportunities faced by our practice within the ever-evolving NHS.

Within the limits of NHS funding, we always aim to provide the most appropriate care to meet our patient's needs. We would like your help to understand how we can make the most of the resources available to us and use them to provide services that you really want.

We would like the group to be representative of our practice community and everyone is welcome.

We anticipate that the patient participation group will meet quarterly at the surgery, and we hope to set up a core committee within this.

We are also going to develop a "virtual group" who may prefer to get involved via computer or letter communication.

INTERESTED? Please email your name and contact details including preferred email address to Boxsurgery@nhs.net with the subject as PPG Interest.
