

"We will encourage people to take responsibility for their own health and well-being whilst treating those who become ill with care, compassion and skill."

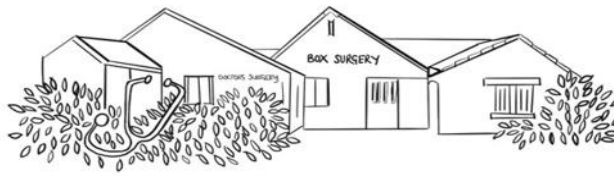

Private work that is not specified on the list below will usually be charged at a GP hourly rate of £240 per hour.

Box Surgery: Fees for Non-NHS Services

Please note that if Box Surgery does not have capacity to complete private work, we may decline your request. You may be aware that general practice is under unprecedented pressure, and therefore we cannot always carry out private work as this would detract from our ability to provide core contracted services to our patients.

Many thanks for your understanding.
