

Box Surgery and the Firs Surgery Practice Leaflet

<https://boxsurgery.nhs.uk>

Appointments and Queries

You can contact our practice for medical or admin requests through AccuRx Patient Triage, a simple online form accessible via our website or your NHS app. Most of our patients find this simple to fill out and we think this is a great way to get in touch without waiting on hold to speak to a receptionist, so please give it a go.

Please provide as much specific and concise information as possible, to allow our team to best deal with your request. If you are unable to use AccuRx Patient Triage please phone our reception instead who will complete the form on your behalf.

How do I use Patient Triage online?

- Go to www.boxsurgery.nhs.uk
- Click on the banner on the home screen "[submit a new request](#)"
- Select either admin or medical request
- Confirm the request is not an emergency
- Write the request, giving as much information as possible
- Confirm how you would like to be contacted
- Enter your details
- Submit

How do I use Patient Triage from my NHS app?

- Open your NHS app and login
- Scroll down to select "Ask your GP advice"
- Select either admin or medical request
- Follow the remaining steps above

How to Register with the Surgery

To register with the surgery, please visit our website to complete the patient registration forms: <http://www.boxsurgery.nhs.uk/patient-info/register/>

If you are unable to access our website, please ask for registration forms at Reception.

If you are registering a newborn baby, please ensure you have the NHS number given to you following delivery. This is required on the registration form.

Under the Patient's Charter, you have the right to access the NHS and be treated equally, no matter what your income, race, sex, sexuality or disability.

If you are registering following leaving the Armed Forces, you will need to supply your enlistment and discharge date on the registration form.

Box Surgery

London Road
Box
Wiltshire

Female Physician Associate

Appointments

We use an appointment system called Patient Triage where patients can submit a medical or admin request using a quick and easy online form, including some details for the reason of your appointment request. Please try to give as much specific and concise information as possible. You are also able to do this on someone else's behalf, for instance children or someone you are caring for. If you do not have access to the internet or are unable to use a computer or smartphone, you can call reception on 01225 742361 and a member of our team will fill this out on your behalf.

We think this is much easier for most patients than waiting on hold to speak to a receptionist, as well as providing our clinical team with the right information to get you the help you need in a timely manner.

All medical requests will be assessed by a doctor or clinical practitioner, usually on the day but at maximum within 48 hours. You may receive a text, phone call or be invited for an appointment at the surgery. Please keep your phone with you and be aware that phone calls from the surgery will display as 'No Caller ID'. If you need urgent assistance please call our reception on 01225 742361 or 111 if we are closed. Please call 999 for life-threatening emergencies.

If you are unable to keep an appointment, please let the surgery know – so we can offer to another patient. Please arrive on time for your appointment. Whilst every effort is made to keep to appointment times, emergencies do occur which can cause us to run late. We endeavour to inform patients if there is a delay.

Self-Referrals

Did you know that there are some free NHS health services you can access without needing an appointment with your GP? This is called self-referral and could help you find the care you need quicker and more easily than contacting the surgery.

Self-referral services include; Urgent Eyecare Services (CUES), Physiotherapy, Podiatry, Mental Health Services, Sleepstation and many more. For more information please see our website or Patient Triage: <http://www.boxsurgery.nhs.uk/self-referral-services/>
<http://florey accurx.com/p/J83013/self-referral>

Services

There is a nurse available most weekdays between 8:30-18:30.

Our nurses have attended courses to enable them to specialise in Primary Health Care and Chronic Disease Management. In accordance with Government guidelines, we review patients with high blood pressure, Diabetes, Asthma, Heart Disease, CKD and Chronic Lung Disease every 12 months. Please make an appointment to see the nurse for your check in your birthday month.

Our nurses and Health Care Assistants also provide the following general treatment room services:

- Blood pressure checks
- Cervical smears
- Contraceptive advice
- Dietary advice
- Dressings
- ECGs
- Removal of stitches
- Immunisations
- NHS Health Checks

Childhood Immunisation Clinics:

These are held weekly at Box Surgery. The Child Health Services will send a letter to the parent/carer when a child is eligible for their vaccinations. Once a letter is received, please contact the surgery to arrange an appropriate appointment.

Contraceptive Services:

We are happy to discuss a range of options available, including; the "morning-after" pill. Certain GPs can also fit diaphragms (caps), IUDs (coils) including the Mirena and the contraceptive implant. Nurses are able to give the contraceptive injection.

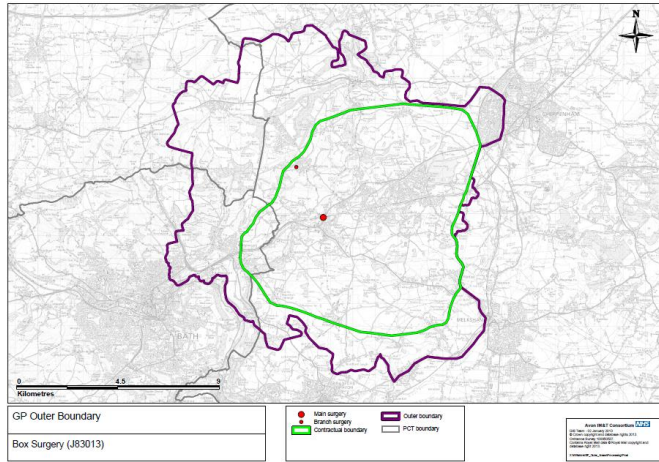

Minor Surgery:

Non-cosmetic NHS minor surgery procedures, such as removal of skin lumps and joint injections, may be done in our Treatment Room by prior arrangement with a GP.

Practice Boundary

The map shows our practice boundary. If you live within the green line, you can register as a patient.

The purple line shows our outer boundary. If you are already a patient and you move to an address within the purple line, you may remain registered with us. If you move outside this line, we may ask you to re-register with a practice nearer to your home.

New patients living within the purple line, but outside the green line may be able to register – please check with us.

Disabled Access

The surgery is accessible to patients with mobility difficulties – there are no steps and there is a disabled toilet. If you need any assistance, please ask a member of staff.

Named GP

Every patient is assigned a named GP on registration. You are able to see any GP and your named GP is whom any correspondence should be addressed to. Patients have the right to ask for their named GP to be changed.

Home Visits

Home visits are made only to patients who are housebound or who are too ill to come to the surgery. Please help us by making the request before 10am if possible. Our triage clinician will assess your request and may call you for further information if required. Parents may be asked to bring sick children to the surgery where they will be seen promptly.

Training

We are an approved practice for the training of post-graduate doctors wishing to specialise in General Practice. These GP Registrars are often with us for an entire year, and we hope that you will see them as part of the practice team. We also assist in the training of medical students.

Other Services – Travel Health

Travel Health clinics are held once weekly. If you are travelling abroad you think you may need vaccinations, please contact the surgery to arrange an appointment. More information is available on our website: <https://www.boxsurgery.nhs.uk/services/travel-health/>

Repeat Prescriptions

You can use one of the following methods to order your prescription; NHS app, SystmOnline, NHS email [boxsurgery@nhs.net] or paper request.

Please note that we do not take medication requests over the telephone for safety reasons.

We aim to generate *repeat* prescriptions following receipt of your request within 48 hours. Please allow your dispensing pharmacy or appliance contractor up to 7 days to dispense your medication.

For eligible patients, our preferred method of repeat prescription management is to use electronic repeat dispensing (eRD).

For more information, please visit our website <https://boxsurgery.nhs.uk>.

Medical Records

Whilst you are registered at the practice, each member of the team (doctors, nurses, receptionists, administrators, pharmacists etc) will access and update your record as required. Within the team we treat all the information in your notes as strictly confidential. If you are unhappy about either the content or the confidentiality of your records, please discuss this with the surgery.

Chippenham, Corsham & Box Primary Care Network (CCB PCN)

Our PCN includes, Box Surgery, Rowden Surgery, Hathaway Surgery, Lodge Surgery and Porch Surgery.

Shared Administration streamlines how we access information and means you will have access to a range of additional services provided by the PCN including; Urgent Care Centre, First Contact Physiotherapists, Paramedics, Living Well Team and Physician Associates. First Contact Physiotherapists are available on-the-day, daily, within the PCN.

To do so means that clinicians and authorised administrators from the PCN will need to access your notes. Please be assured we have very strict rules in place across the PCN around patient confidentiality and who can access patient notes. It just means this access will be available for authorised staff working within the other surgeries too. Please see our Privacy Notice for further information.

You can opt out of Shared Administration – it is entirely optional to choose not to take part. Even without sharing your record, the NHS will still be able to provide the care that you need. However, it would mean you miss out on the services listed above and any new services provided by the PCN. If you choose not to take part, please complete the form on our website and send into the surgery. You can return the form to us by bringing into the surgery, via email (boxsurgery@nhs.net) or via post.

Please see our privacy notice on our website <https://www.boxsurgery.nhs.uk/patient-info/privacy-notice-2/>

Further information

For more information on the clinics and services we offer within the practice and the Primary Care Network (PCN) please visit our website

Complaints

How to complain

We hope that most problems can be sorted out easily and quickly, often at the time they arise and with the person concerned. If your problem cannot be sorted out in this way and you wish to make a complaint, we would like you to let us know **as soon as possible** - ideally, within a matter of days or at most a few weeks- because this will enable us to establish what happened more easily and accurately. If it is not possible to do that, please let us have details of your complaint:

- within 6 months of the incident that caused the problem; or
- within 6 months of discovering that you have a problem, provided this is within 12 months of the incident.

Complaints are most helpful to have in writing (email is acceptable) and addressed to Dr David Jones. We can also take detail over the telephone. Alternatively, you may ask for a meeting in order to discuss your concerns. It will be a great help if you are as specific as possible about your complaint. Please ensure your complaint contains your name, address and relevant contact details.

What we shall do

We shall acknowledge your complaint within three working days and aim to have investigated your complaint within 20 working days from receipt. We shall then be in a position to offer you an explanation, or a meeting with the people involved. When we look into your complaint, we shall aim to:

- 1) Find out what happened and what went wrong.
- 2) Make it possible for you to discuss the problem with those concerned if you would like this.
- 3) Make sure you receive an apology, where this is appropriate
- 4) Identify what we can do to make sure the problem does not happen again.

Complaining on behalf of someone else

Please note that we keep strictly to the rules of medical confidentiality. If you are complaining on behalf of someone else, we will need their written permission to do so, unless they are incapable (because of illness) of providing this.

Further investigation

We hope that, if you have a problem, you will use our practice complaints procedure. We believe this will give us the best chance of putting right whatever has gone wrong and an opportunity to improve our practice.

However, if you feel at any stage that your complaint should be investigated at a higher level, you can contact NHS England or [the Parliamentary and Health Service Ombudsman](#).

Please note that complaints should be raised with the Ombudsman within 12 months.

Zero Tolerance

We take any threatening, abusive or violent behaviour against any of our staff or patients seriously. If a patient is violent or abusive, we may exercise our right to take action and have them removed, immediately if necessary, from our list of patients.
